Dear Mr. Scott:

We are unable to provide you with the 2012 IRS 990 filing, as an extension was filed. When the document is filed, you will be provided a copy as provided by law.

Sincerely,

Gary A. Crowe  
NAPPS Administrator  
800-477-8211

**Subject:** RE: NAPPS treasurer questions

Dear NAPPS Leaders:

Accept this as my official request pursuant to tax exempt laws that you send me a copy of the recently filed May 16, 2013 the 2012 IRS990 for NAPPS organization. If the board refuses to acknowledge this request I will request it directly with the IRS and include to them the refusal.

I have blind carbon copied this to several parties as it contains an early example of my request to this board. An example even prior to Musser initial expulsion threat in the coagency relationship he has in FAPPS and NAPPS. I would also appreciate that this board reconsiders its activities relating to the IRS concerns and revisit your actions from furthering damaging the NAPPS membership from the errant practices.

You may email this to me by Thursday May 23, 2013. As far as the content of the forwarded email below I find Mr Janney did his job to the best of his ability. I appreciate the work he did in attempting to get the answers and most greatly appreciate his efforts of transparency at the Boston conference. I will do my part to build on that message for all the members, all those in the process serving industry and all US taxpayers.

Sincerely yours and take credit for all your decisions,

Randy Scott

To: 'Mr Steve Janney NAPPS Treasurer'

Subject: NAPPS treasurer questions

Dear Mr Steve Janney:

The foundation of my efforts is to learn more about NAPPS. Primarily I have officially requested the minutes of NAPPS for at least the last 5 years. Without having the minutes available and only the unofficial docket sheet to describe official events I am sent studying from other sources. These sources may or may not be accurate.

The purpose of this email to you is I have some concern over the influence of Serve-Now in NAPPS. It seems that when we decided against the continuation of the SEO contract that it would have benefited them greater than anyone else. At the last annual meeting they held a dinner where enough attended in number to conceivable elect a new board. The new board discontinued the SEO contract.

I have read a portion of a book on line "Guidebook for directors of nonprofit corporations By George W. Overton, Jeannie Carmedelle Frey, American Bar Association. Committee on Nonprofit Corporations"

<http://books.google.com/books?id=uwfc4Pg8J2sC&pg=PA113&dq=web+site+links+wit+h+web+sites+of+taxable+organizations&hl=en&sa=X&ei=6k7zTrq4PMbf0QHrodmbA+h+web+sites+of+taxable+g&ved=0CEoQ6AEwAA#v=onepage&q=web%20site%20links%20with%20web%20sites%20of%20taxable%20organizations&f=false>

In this book it points out some questions about web site links and advertisers vs. supporters and the tax implications on a designated non-profit.

My questions seem to stem from the search for more transparency. Some questions I started with unfulfilled seem to gather more. As the treasurer could you tell me if we are secure in our finances where even some member charges such as additional listings in additional cities are properly categorized i.e. advertisement vs non taxable.

I posed these question to you as you are more knowledgeable with the non-profit requirements than I. Should members be concerned about a significant tax hit if the member and vendor listings are shown as advertising and taxable to the association?

Thank you
