### **Napps Leaders used conference to continue their stealing**

*To be elected to board under OUR rules and bylaws you must be a member for 2 years*

<http://www.pstrade.us/protected/couch.html> this link will show you how CROWE and others have again showed the professional process servers they lead how to behave in the sewer! Let me Randy A Scott a professional process server show you and give you the ladder of information to help you climb out!

### **Steve Glenn and the NAPPS arbitration and grievance process**

*Mr Glenn sends papers to process server through NAPPS. Process server acknowledges paperwork and identifies the correct content of same. Steve Glenn files AG complaint because process server would not lie and indicate the process contained paper that were not there. Process server responds with detailed supporting notes. Arbitration Grievance file disappears no action taken never to be heard from again. No response made no determination made. Steve Glenn is then arranged to be elected to the NAPPS board and the tradition continues.*

Have you ever had a threat of an arbitration grievance against you or your company or your employee? Let me know about at [randy@randyscott.us](mailto:randy@randyscott.us) I am hearing from many people that they have been squeezed. Squeezed by some NAPPS leaders relating to geographical market share threats, to pricing strategies to customer allocation. Many times what they are asked to do is illegal, unethical, unprofessional, divisive and under duress with a threat of negative economic consequences. Just take a look at the international trade for example would you dare step into that arena knowing that NAPPS admin offices is on top of that hill within the NAPPS community?
