

10:27AM **CERTIFICATION/CONTINUING EDUCATION (Chair - Larry Yellon)**

The latest seminar was held on 9/16/2006 with 22 persons. The response to the new book was favorable. **Chairman Yellon discussed his short term goals** to improve the course material further, develop continuing education requirements and give lectures and courses to other associations. **His long term goals are to have certification required for all process servers in New York State as part of a statewide registration requirement and to have the NYC Department of Consumer Affairs make our certification program part of their licensing procedure.**

10:50AM **LEGISLATIVE (Chair - Peter Vazquez)**

Set short term goals to send a letter to a New York State Assemblyman to set meeting in Albany and to formulate a mechanism to watch pending legislation. Long term goals should include statewide registration of process servers and to build a good working relationship with the NYS Bar Association and related organizations. The chair deemed it desirable for the Board to set the long term goals. He will put an article in the next newsletter asking members what their legislative goals are.

11:54AM **MARKETING AND PROMOTIONS (Chair - Jillina Kwiatkowski)**

The chair set the short term goals as attending conferences of related organizations to advertise NYSPPSA, to continue to develop and maintain advertising materials including the tri-fold brochure and wall display and attending a conference in New Jersey in October. The long range goals would be complete name recognition for NYSPPSA in the legal community. The chair will put an article in the next newsletter asking members for ideas on where and to whom we should be making presentations to.

12:09PM **BENEFITS (Chair - David Bacharach)**

The chair set the short term goals as developing IRA's, pension programs and E&O insurance that can be offered to the members. The long range goal will be to develop a comprehensive benefits package that can be offered to members. Margaret Kenney will work with the chair to develop a preferred vendor list for the website and directory.
